SUMMARY

BCA student at REVA University and aspiring Software Developer with hands-on experience building full-stack and AI-powered applications. Experienced with JavaScript, Node.js, Express.js, MongoDB, TypeScript, REST APIs, authentication, and AI integrations. Strong foundation in Data Structures & Algorithms with active LeetCode practice.

SKILLS

Languages: JavaScript, Java, Python, C, Shell Scripting, TypeScript
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT, OAuth
Databases: MongoDB, MySQL, Redis
Tools: Git, GitHub, Postman, Figma, Vercel, Render, Canva, Docker
Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management

EDUCATION

Bachelor of Computer Applications REVA University, Bengaluru Aug 2024 – Aug 2027

- **CGPA:** 8.85
- Coursework: Data Structures & Algorithms, Computer Networks, Operating Systems, Software Engineering, RDBMS, Design & Analysis of Algorithms, Java, Python

PROJECTS

Web OS — *Mac OS-inspired Browser OS / Portfolio* Live Demo

- Engineered a browser-based operating system simulation with 5+ functional apps, window management, and a Dock — resulting in a fully interactive developer portfolio with 0 external dependencies.

NOC Simulator — *Network-on-Chip Simulator* Live Demo

- Built an interactive visual simulator for Network-on-Chip architectures, reducing concept learning time for students by making data flow between nodes observable in real time through animated rendering.

Flakes.pdf — *Client-side PDF & Image Utility* Live Demo

- Delivered a zero-server file tool supporting image-to-PDF conversion, multi-file PDF merging, and compression — processing files entirely client-side to eliminate server costs and ensure user privacy.

Orvyn— AI-Powered Search & Research Assistant Live Demo

- Built an AI-powered search assistant using LangChain, Google Gemini, and Tavily for real-time web search and context-aware responses, with Node.js, Express.js, and MongoDB backend integration.

WORK EXPERIENCE

Video Editor Intern — Kampus (Social Networking Platform) Feb 2025 – Jul 2025

- Produced and delivered 3–4 short-form videos per month aligned with brand identity, contributing directly to a social media content pipeline across Instagram and YouTube.

Editorial & Content Head — Software Coding Club REVA University (Nov 2025 – Present)

- Spearheaded 6–7 technical events per semester — including hackathons and debugging competitions — managing end-to-end logistics for 50+ participants per event.

CERTIFICATIONS

- **Introduction to Generative AI** — Google Cloud, Coursera (Feb 2025) | Verify
- **Database Management Systems (RDBMS) and Microsoft Fabric SQL** — Udemy (Dec 2025) | Verify
- **Python PCAP: Certified Associate in Python Programming** — Udemy (May 2026) | Verify
