PROFESSIONAL SUMMARY

Software Developer with hands-on experience designing and building full-stack web applications and AI-powered solutions. Proficient in JavaScript, Java, Python, React.js, Node.js, Express.js, and MongoDB, with practical experience in backend development, REST APIs, secure authentication, LLM integration, and RAG pipelines. Strong foundation in Data Structures and Algorithms, problem-solving, and writing scalable, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, C, TypeScript
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT, OAuth
Databases: MongoDB, MySQL, Redis, Pinecone
AI & LLMs: Generative AI, LLMs, Prompt Engineering, AI Agents, RAG, LangChain
Developer Tools: Git, GitHub, Postman, Docker, Vercel, Render
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management

PROJECTS

Orvyn – AI-Powered Search & Research Assistant Live Demo

- Built an AI-powered research assistant using LangChain, Google Gemini, and Tavily for agentic web search and context-aware responses, with a Node.js, Express.js, and MongoDB backend supporting secure JWT authentication and conversation management.

Web OS – Interactive Browser-Based OS Portfolio Live Demo

- Created a Mac OS-inspired interactive web portfolio featuring functional applications, window management, and a personal AI chatbot powered by RAG and Pinecone for context-aware responses about my profile and experience.

Flakes.pdf – PDF & Image Utility Live Demo

- Engineered a browser-based PDF utility supporting image-to-PDF conversion, PDF merging, and file compression through client-side processing, reducing server dependency while keeping users' files on their devices.

NOC Simulator – Network-on-Chip Simulator Live Demo

- Developed a React-based interactive simulator in collaboration with a professor working on an emerging Network-on-Chip architecture language, enabling visualization of network architecture and communication flows.

WORK EXPERIENCE

Freelance Web Developer

Dr. Rao's Naturals – E-commerce Website Live Website — 27 Aug 2026 – 30 Sep 2026

- Developed a responsive e-commerce platform with product management, an admin dashboard, and Cloudinary-powered image uploads using React, Node.js, Express.js, and MongoDB.

Prof. P. V. Rao – Academic Portfolio Live Website — 1 Oct 2026 – 30 Oct 2026

- Developed a multi-page academic portfolio with an admin dashboard and backend integration for dynamic content management.

Kampus – Video Editor Intern — Feb 2025 – Jul 2025

- Produced 3–4 short-form videos per month aligned with brand identity for social media platforms.

EDUCATION

Bachelor of Computer Applications (BCA) — **Aug 2024 – Aug 2027**
REVA University, Bengaluru — CGPA: 8.85

CERTIFICATIONS

- **Introduction to Generative AI** – Google Cloud, Coursera — February 2025
- **Database Management Systems (RDBMS) and Microsoft Fabric SQL** – Udemy — December 2025
- **Python PCAP: Certified Associate in Python Programming** – Udemy — May 2026

ACHIEVEMENTS & LEADERSHIP

- **Problem Solving:** Solved 80+ problems across LeetCode and GeeksforGeeks.
- **Hackathon Participation:** Participated in multiple hackathons, including Smart India Hackathon (SIH) 2026, advancing to Round 2.
- **Technical Event Coordination:** Coordinated 5+ technical events through the Software Coding Club at REVA University.
